Temperature and environment logging made easy Silentrac – Loggers

USB PDF DATA LOGGER
TEMPERATURE & HUMIDITY

SINGLE USE ONLY

SILENTRAC
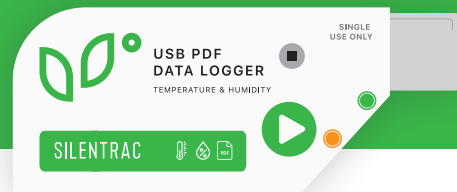

Precision Monitoring offers a range of innovative monitoring products that provide real-time insights and data to help businesses optimise their operations. Our products are designed to provide precise monitoring solutions for a wide range of applications, including temperature, humidity, power, and more.

With easy-to-use interfaces and intuitive reporting tools, our products empower businesses to make informed decisions that improve efficiency, reduce waste, and enhance the overall quality of their operations. Whether you're looking to monitor a small operation or a large industrial facility.

Precision Monitoring has the products and expertise you need to take your business to the next level.

Accurate Temperature Monitoring with Silentrac PDF series of loggers.

When it comes to ensuring the safety and quality of your perishable products during distribution and storage, accurate temperature monitoring is key.

Silentrac Loggers offers an easy-to-use solution for time and temperature tracking, eliminating the need for reading devices and proprietary software.

With their small size and USB connection, Silentrac Loggers are versatile and convenient for a wide range of applications.

Simply activate the logger and place it with your shipment.

Once connected to a computer, the logger automatically generates a PDF file containing complete time and temperature history, including graphs and summary data, as well as a table of all temperature readings during shipment.

And for added convenience, Silentrac also generates a CSV file.

Accurate Temperature recording

Global shipment capable

**USB connectivity for simple use and reliability**

Compliance capable

Accurate time and date recording, and tamper proof CSV and PDF reports

Silent data tracking – in case the recorder isn't activated

SILENTRAC

Keeping it cool, made easy. A simple tool for oversight and compliance
